BRICKFIELDS: SOCIAL HOUSING - ENCOURAGING DIVERSITY

URBAN SCHEME DESIGN - 3 BLOCKS IN NEWTOWN

INDIVIDUAL BLOCK DESIGN - NORTH-SOUTH STRIPS

NORTH - SOUTH STRIPS

SOFT ENVIRONMENT:

- The site is designed to incorporate open spaces between the buildings to create a sense of community.
- The layout allows for natural light and ventilation.

SUN ORIENTATION:

- The buildings are oriented to maximize sunlight and minimize the impact of the sun's rays.

MORE IMAGE!!!

- The north-south strips are characterized by:
  - Open spaces
  - Greenery
  - Social interaction

INDICATOR:

- The design incorporates indicators such as:
  - Solar panels
  - Green roofs
  - Water harvesting systems

GETTING BACK TO RAIN:

- The scheme aims to promote sustainability and environmental responsibility.

GROUND FLOOR PLAN:

- The ground floor plan includes:
  - Public areas
  - Green spaces
  - Accessible areas

INTENSIVE LAND USE:

- The site is designed to encourage intensive land use, promoting the efficient use of space.
